## WINNIPEG'S RECORD

### NEARLY 1000 CARS IN A DAY

More Wheat Reached Winnipeg Yesterday than Minneapolis, Duluth and Chicago Combined

St. Paul, Minn., Oct. 11.—Yesterday was the day Winnipeg stepped to the front and centre on the roll call of primary markets. For the second time this year she ran close to the 1000 car mark and for the first time in history got more wheat in than Minneapolis, Duluth and Chicago combined.

### MAY CONTINUE SERVICE

Montreal, Oct. 7.—It is learned from authoritative sources that the C.P.R. will in all probability cease to operate its double daily transcontinental express service at the end of October, but that it will continue to run a double daily service between Montreal and all points west as far as Calgary till Jan. 1, 1906. From Calgary west to Vancouver, a single train each way will be run daily.

The decision of the railway company to operate the double daily service as far west as Calgary during the early winter months has been brought about by the fact that an enormous amount of travel is bound to occur to the North West points from the east during the remaining months of the present year. This travel is consequent upon the steady tide of immigration to the new provinces of Alberta and Saskatchewan.

Winnipeg, Oct. 9.—In response to the Free Press' request, and after viewing a sample of Turkey Red winter wheat forwarded to them from Nanton, Alta., grading No. 1 Red Winter, yielding 34 bushels to the acre, the Pillsbury-Washburn Flour Co. of Minneapolis, has sent the following:

"In reference to the sample of wheat which you say is Red Winter from Alberta, we will say that the fact which we have made seems to indicate that this is a very fair quality of milling wheat for some purposes, but that the per centage of gluten is lower than in the spring wheat raised in the north, and the quality and color of the gluten is lower. The color of the flour made from this wheat would not be so good a quality as that from spring wheat.

"However, it is good bread-making flour if properly used, and if it can be raised on a yield of thirty bushels to the acre, it should be a very profitable crop to the farmer, and would find a ready sale to millers at a fair price."

### TO HANDLE ALBERTA LANDS

London, Oct. 6.—The Canadian Press understands that a big London syndicate has been formed to retail Canadian Pacific lands. It is stated to have bought 90,000 acres of land at Edmonton. Shares in this syndicate are stated to be already largely oversubscribed and it is said that shares could not be obtained for money by influential buyers in the city on Wednesday evening.

### BRAND RECORDER FOR ALBERTA

With the division of the North West Territories into Provinces the question of recording brands comes up for consideration. As it is so important a question to decide without careful study, arrangements have been made with the Government of Saskatchewan to continue recording at Regina all brands for the Province of Alberta. This arrangement will permit the work of recording to go on smoothly and give time to devise some scheme that will be suitable to each Province.

All applications for horse and cattle brands should, therefore, be made to J. R. C. Honeyman, Deputy Commissioner of Agriculture, Regina, Sask., who will administer the Brand Ordinance of the North West Territories until new arrangements are made for each Province.

## MULOCK MAY RETIRE

### FROM POLITICAL LIFE

Reported in Ottawa That the Postmaster General will Give up Public Life

Ottawa, Oct. 11.—Sir William Mulock is retiring from the cabinet and from political life. An official announcement to this effect will be made within the next forty-eight hours. So far nothing is obtainable, nevertheless the postmaster-general is resigning from the Government and the House of Commons. It is probable that he will accept the vacancy on the Superior Court bench in Ontario. For some time past Sir William has not been in the very best of health, and his family and friends have been pressing upon him to take a rest. He has been a most indefatigable worker for many years and leaves behind him evidence of this in the many postal reforms which he has established and the labor disputes which he has settled. His Department was in a muddle with a deficit of about \$800,000 when he took hold, and today the revenue has paid for the expenditure notwithstanding the big saving which the people have obtained through reduction of postage. Mr. Aylesworth, who will succeed Sir William, will no doubt run for North York, Mulock's present constituency.

### CALGARY LABOR MAN

Alberta: A. D. Macdonald, of the Carpenters Union, was last night selected as candidate of the labor party at a convention held in the Co-operative hall. The meeting was well attended by delegates and was very unanimous.

### LLOYDMINSTER

Mr. T. McNamara of the real estate firm of McNamara Bros., Lloydminster, in company with Horace Hume, arrived in the city on Sunday evening. Speaking of Lloydminster and the country between there and this city he said: "The country is prosperous and the crops were never better. Around Bruderheim the crop is nearly all threshed, while near Lloydminster very little threshing is done. Lloydminster has grown to be a town of nearly six hundred people with four large general stores and two others in course of erection. The water supply, which at one time threatened the life of the town, has been solved. A well 150 feet deep has been sunk and there is at present 110 feet of water in it. A pump of sufficient capacity to supply the town is on its way from Winnipeg. Owing to the peculiar geographical situation of the place it has not been incorporated even as a village yet. Main street runs north and south, the west side of the street being in Alberta and the east in Saskatchewan."

The C. N. R. put on six blocks of their townsite, west of Main street and in three days \$20,000 worth was sold, the squatters having the first chance to buy. Lloydminster has at present a tri-weekly passenger service over the C. N. R. from Winnipeg, while six or eight trains with freight and supplies, arrive there daily. C. P. R. lands within a radius of ten miles of Lloydminster are for sale at \$10 an acre, while farther out they are sold for \$5 and \$6.

Manville and Vegreville, C. N. R. town sites, are surveyed and the people from these towns are squatting on the new sites, as the squatter has the first chance to buy. The town sites are expected to be put on the market in ten days.

The settlers are coming in from the United States and Ontario on every train, and as the land around Lloydminster is among the richest between Edmonton and Winnipeg, the country round about is fast filling up.

## HUDSON'S BAY ROUTE

### BY NORTHERN WATERWAYS

Edmonton the Starting Point for Navigation By River and Lake to the Bay

Ottawa, Oct. 10.—Reports from Major Moodie show that Chesterfield Inlet and Baker Lake, opening from Hudson's Bay, are navigable for fair sized steamers about a hundred miles inland. It is the intention of the Comptroller of the Northwest Mounted Police to make use of this stretch of navigable water to establish communication between Hudson's Bay and Edmonton by way of Chesterfield Inlet, Baker Lake, Great Slave Lake and the Athabasca River. The attempt will probably be made next summer, when a small steamer will be ready for police work on Hudson's Bay.

### "TALK IS THE CHEAPEST THING ON EARTH"

Editor Bulletin.

Sir: I am an outsider from over the line, who has not yet got a grip upon your political situation in this country. I was told by a friend of mine who was staying at the Alberta hotel, that a man who was staying there on Monday, named Sir Bennett, was the biggest man in the Province on a political platform, and that if I went to the meeting at the Thistle rink, Mr. Bennett would be sure to put me wise on the different questions that were now vexing this country. Well, I went there, and I must confess that I did not get much for my time except a spiel from a spell-binder, as we call them across the line. I and thousands of others from the States are coming here to settle, because we believe the land is for the settler and not for the speculator; that the lands of this part of Canada are as good as the best in the world; that the Mounted Police do their business right, even and let no quality man escape; and that the happiness, prosperity and opportunities that prevail here are superior to that which we had across the line.

Mr. Bennett told me a different story, and it is good for this country that I and thousands of others do not believe the picture is as black as he paints it. If we believed him, we would like for home, and the first train out could not pull out too soon. We would not like to live in a country of crooked politicians, and from whom Mr. Bennett says there are only about two straight ones in public life—himself and Mr. Haultain, and at times he has had his doubts about Haultain. The country has been robbed by the Federal Government and is doomed to hopeless misery in years to come, the schools must be secularized, and no religious training of any kind must be allowed; and according to Mr. Bennett, if there is a poor, down-trodden country on earth, populated by manacled and shackled serfs, Alberta and Saskatchewan comprise it. Mr. Bennett is a fluent talker and smooth tongue, but the way he was running down his country and trying to give it a black-eye, made me to doubt his statements. We had a Benedict Arnold on the other side once upon a time.

Yours,  
An American.

## NOT PLEDGED TO SUPPORT EDMONTON

The more the Conservatives talk about the capital the more muddled they get. Candidate Griesbach has a busy time keeping square with the Calgary Herald and at the meeting on Friday evening, Mr. Griesbach stated that all the candidates north of Red Deer were pledged to Edmonton. This statement turns out to be untrue. Andrew Gilmore, Conservative candidate for Lacombe states positively that he is not pledged to support Edmonton.

## MR. BENNETT AT THE FORT

Fort Saskatchewan, Oct. 11.—The first gun in the campaign in Victoria was fired here last night by the Provincial strike party, when R. E. Bennett the Conservative leader addressed a fair sized but not enthusiastic audience in Langworthy hall. The meeting was opened by J. W. Shers, local candidate for the opposition who expressed the hope that Mr. Bennett and himself would be successful at the polls.

Mr. Bennett dealt at length and in inflammatory eloquence with what he termed the injustice of this autonomy bill in its withholding from the Province the right to administer its Crown lands and the right to involve and construct its own school system. But to the thinking public his speech was disappointing in its failure to suggest a remedy for the alleged grievances. Except for a vague reference in closing to an appeal to the courts the audience was left entirely in the dark as to what would be the remedial policy of Mr. Bennett and his party if returned to power.

## FOSTER'S FORECASTS

Washington, D.C., Oct. 9.—Last bulletin gave forecasts of disturbance to cross continent Oct. 10 to 13, warm wave, Oct. 9 to 12, cool wave Oct. 11 to 15. Next disturbance will reach Pacific coast about Oct. 14, cross west of Rockies by close of Oct. 15, great central valleys Oct. 16 and 18, eastern states, Oct. 18. Cool wave will cross west of Rockies about Oct. 14, great central valleys Oct. 15, eastern states Oct. 18. Cool wave will cross west of Rockies about Oct. 17, great central valleys Oct. 18, eastern states Oct. 21.

This disturbance will continue during a period of low temperatures, the warm wave will not bring very warm weather, the cool wave will bring unusually cool weather and the frosts will reach further south than usual at that time of the year. Otherwise this disturbance will not be very radical except that a tropical storm will probably be moving north-westward off the middle Atlantic coasts.

I am now expecting October weather to be much more radical than I have heretofore indicated. There are probabilities of severe tropical storms—not great storms, however. The most probable dates for these tropical disturbances will be within a few days of Oct. 12 and 27.

October will be less favorable to cotton picking and corn gathering than I have heretofore stated, and November will be more favorable. Immediately following October 7 a great and general rise in temperature may be expected, and frosts will be less severe till after October 13. Temperatures will average high between October 7 and 13, and very low between October 13 and 20.

My forecasts for very cool first part of September and very warm during the middle part of the month, were great successes for the forecasts.

I am now prepared to demonstrate, beyond question, the cause of sun spots and the eleven year period in the earth's magnetic variations. Relative planetary positions clearly account for these two heretofore unaccountable features of solar system physics.

At last the long range weather forecasters have compelled the United States weather bureau to promise

long range weather forecasts. The weather bureau has been recognized and two or three real scientists added to its force. Its best man, Prof. Bigelow, is now chairman of the board of scientific advisors. I am glad to see Prof. Bigelow's abilities thus acknowledged. He has been under the ban, was the rejected boulder and his now become the chief corner stone, the only man of the old force capable of saving the weather bureau from general ridicule.

### ONE MONTH FOR MAN-SLAUGHTER

Regina Standard: One month in Regina jail is the penalty to be exacted from R. G. Summers, the young Englishman who was accused of killing George Stein, his employer at Mooseomin, a short time ago.

Summers was taken to Mooseomin this week, and as previously stated, was found guilty of manslaughter, with a recommendation to the mercy of the court.

On the day following the trial, a petition largely signed asking for clemency, was presented to Mr. Justice Wetmore, and His Lordship in passing sentence, took a lenient view, as the penalty shows.

The crime committed by Summers was the killing of George Stein, on the latter's farm, Weyburn. There was an altercation between the two men over some work and in the heat of the trouble, Summers struck Stein over the head with a leg, killing him.

### NEW CLASS OF IMMIGRANTS

Free Press: Mr. Haultain is to be assisted in his campaign in Saskatchewan, it appears, by a contingent of carpet-baggers from Ontario. The first of the tribe is on the ground in the person of J. Lockie Wilson, who is represented on the posters as president of the Farmers' Association. There is such an association in Ontario and Mr. Wilson is, we believe, its president; but we have our doubts as to whether the Ontario farmers sent Mr. Wilson to the west or are paying him for the valuable time he is wasting as a Haultain campaigner. Mr. Wilson is pretty well known in Ontario where he has boxed the political compass. He has been Conservative, Patron, Liberal and now he is Conservative again—this latest change following hard on the failure of the Ontario Government to recognize his fitness for a position on the railway commission at \$8,000 per year. That he should be willing to take part in the Saskatchewan campaign is understandable, for notoriety is the chief asset of agitators of Mr. Wilson's stamp; but that Mr. Haultain should consider it advisable to import discredited barn-stormers from Ontario to help him out in his fight in Saskatchewan is astonishing. The contest in Saskatchewan is or should be, a local one. The point at issue is a choice between two policies, represented by local parties; and the electors ought to be able to make up their minds without being coached by strangers from Ontario who know nothing of the matters at issue and whose intrusion is an impertinence. Mr. Wilson should be shipped home to Glasgow where he belongs. If he has any private business this would be a good time for him to pay some attention to it.

### WINNIPEG MARKETS

(From the Commercial)

In the Winnipeg market, Manitoba wheat has been active and lower, and prices have declined 2 to 3c per bushel on the week except for 1 hard, which is only 1 1/2-2c lower. Deliveries by farmers at country points are about a million bushels daily and shipments to terminal elevators fully half that quantity daily. The pressure of so much wheat on the market at once depresses prices, however, and dealers have to consider the probability of early blockades and elevators filled with wheat, waiting for cars to move it. Today's prices are—hard, 75c; 1 northern, 75 3/4c; 2 northern, 74 1/4c; 3 northern, 72 1/2c; spot or past Winnipeg and on the option market, futures closed, October, 75c; November 74 1/2c; December, 73 3/4c; and May 78 1/2c. All prices are in store Fort William and Port Arthur.

Oats are moving slowly, out of farmers' hands. The market for oats is firm, but demand is not urgent. The quality of the new crop is high, car inspection being mostly No. 1 white. Prices are: No. 1 white, 30 1/2c; No. 2 white, 29 1/2c; in store Fort William or Port Arthur. Barley is in good demand at 36c for No. 3 and 35c for No. 2 in store and Fort William and Port Arthur. Flax is also in good demand and firm. The movement is on a small scale yet, and prices are 97c No. 1, northwestern; 95c No. 1, Manitoba, and 94c rejected, in store Fort William and Port Arthur.

### VICE REGAL PARTY IN WINNIPEG

Winnipeg, Oct. 9.—Earl and Countess Grey were formally welcomed by the civic authorities yesterday afternoon at the city hall when addresses of welcome were presented. In reply the Governor-General dwelt on the wonders he had seen in the great and prosperous West and alluded to his firm faith in what he described as "The Religion of the British Empire" as the greatest civilizing power in the world today. After the addresses a public reception was held which was largely attended. In the evening a banquet was given at Government House.

## NEW BRUNSWICK FIRE

## DESTROYED LUMBER MILLS

Tracadie Lumber Co.'s Plant and Stock  
Destroyed by Flames on Sunday

St. John, Oct. 9.—A despatch from Tracadie, N.B., received here today says that the Tracadie Lumber Co.'s mill, hotel, sheds, the manager's residence and all the manufactured lumber was destroyed by fire Sunday afternoon. The fire started in the boiler house and spread so rapidly in the northwest wind that nothing could be saved. The property is owned by Bangor people. The property carried \$119,700 insurance, which will cover the loss.

BRITON HELD FOR RANSOM  
Salonica, Turkey, Oct. 9.—The British consul at Eneomystr has received a package containing a human ear, which a letter accompanying the package declares was cut from an Englishman named Wells, recently sent to the Turkish revenue department. Wells was captured by brigands and the letter threatens that he will be murdered unless a ransom of \$5,000 is paid.

LIFE INSURANCE INVESTIGATION  
Toronto, Oct. 9.—A Parliamentary investigation into Canadian and American life insurance companies operating in Canada is certain next session. The revelations before the New York Legislature have done great injury to life insurance so much so that agents in this and other cities report absolute stagnation in business. It is known that several of the Canadian companies are heavily over-salaried.

THE AUSTRIAN CRISIS.  
Buda-Pest, Oct. 10.—When Parliament re-assembles today it will face a situation of the greatest confusion. The compromise program has proved a failure. Great numbers of students will proceed to Parliament all wearing black and carrying a black coffin inscribed "The constitution has expired." The coalition leaders have abandoned their original intention to disregard the Royal message protecting the Diet. They will protest against adjournment, but will respect the Emperor's message.

Faith  
You cannot be expected to have faith in Shiloh's Consumption Cure, the Lung Tonic, as a cure for Colds, Coughs and all diseases of the air passages, if you have not tried it. We have faith in it, and to convince you that it will cure you we guarantee it. If it does not cure you it costs you nothing. If it does it costs you 25c. That's fair. Try it to-day.

Proof  
It is found in the many testimonials of those who have tried Shiloh and been cured. Mrs. Archie Taylor, Asaph, Pa., writes:—  
"I bought a bottle of Shiloh's Consumption Cure and found it very beneficial. I have two children and they had a terrible cough. I gave them everything I could think of, but they got no better until one evening my husband brought a bottle of Shiloh. We gave it to the children when they went to bed, and they slept all night. It cured them completely. I shall always keep it in the house."

## SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years has abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but compared with the growth of the next two or three years it will be but as the dawn of day compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

## The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms—on third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

## History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

## LOCAL

—The Edmonton district teachers' convention will be held in the city tomorrow.

—The fire alarm was sounded at the Queen's avenue school this morning and the children were out in one minute.

—Alberta: Mrs. Wm. Edmond and Master Bert leave this morning for the north to spend a few weeks with friends in Edmonton.

—Knights of the Macabees, and their friends will enjoy themselves at a dance in the Sandison hall this evening.

—Mr. J. D. Tripp, of the Toronto Conservatory of Music, who gave a recital here last spring under the auspices of the Methodist church choir will appear here again in December.

—A black team belonging to Cushing Bros. attached to lumber wagon started to run away this morning on Second street near the corner of Jasper. Constable Bradley pluckily ran out and helped the driver get them under control.

—Calgary Herald: The latest bubble to be exploded on Edmonton's devoted head is that showing the necessity for the irrigation department of the government to be removed from Regina to Calgary, not Edmonton. In explanation of why the department was not administered from Edmonton, the seat of government, friends of Edmonton and the government explain that it was because Calgary is more of a semi-arid region than the north country and therefore has more immediate use for the irrigation department than the district around the seat of government.

—After being in the cells for five hours on a charge of intimidating the miners at J. R. Brenton's mine, (the City Coal Co.) John Zagrobalny was allowed to go free by Magistrate Cowan. Several witnesses were called to prove that he had threatened them, but only one man, had had any conversation with him and when the prisoner was put on the stand he flatly denied the others' statements and said that on the evening on which the threats were alleged to have been made, a party of about eight, including witness and himself had drunk a ten gallon keg of beer and the witness was drunk, but he had never been drunk in his life. Case dismissed with costs of \$3.75 to complainant.

—Winnipeg Tribune: Today's west train on the Canadian Northern was unusually crowded because of the first number of land seekers going out to the new districts around Humboldt, Kinross, and other points on the new C.N.R. main line. The trains from the south this morning were crowded and it is estimated that upwards of 200 Americans arrived in the city on their way to inspect land and in many cases select farms preparatory to moving to the Canadian West next year. As an inducement to settlers, the Canadian Northern every Wednesday gives a special rate to land seekers and the number from across the border to take advantage of the special rate has increased every week and today is probably the largest on record. The large land companies, through their agents in Wisconsin, Illinois, Minnesota and other northern states are responsible to a large extent for the movement, while the Government and Western Canada

Immigration association are not behind the private companies in advertising Western Canada and inducing the farmers from the states at least to visit the West and personally investigate the fertile prairie land. Indications are that the 'American invasion' next year will exceed that of this year at least fifty per cent.

—Winnipeg Tribune: Lieut.-Gov. G. H. V. Bulyea said to a reporter for the Tribune said last evening that in both the new provinces the crops this year had been grand and safely harvested. As a result the commercial and financial conditions in the West are very bright indeed. "There is now," said Mr. Bulyea, "every reason to think that an era of great prosperity is in store for the West for a considerable time to come. The crops this season have been phenomenal. The yield of wheat in both of the new provinces will average 30 bushels to the acre. This means for the farmer, with the price at 60c, a gross earning of \$18 to the acre. This, in turn, means wealth and in view of all this it is fair to suppose that shortly all outstanding accounts will be taken up and prompt settlement will characterize business in the near future." Speaking of the country generally, Mr. Bulyea said of the principal towns: "Edmonton is now rapidly growing into a very handsome city, with many fine handsome brick buildings, and the same could be said of Calgary, Regina, Saskatoon and Prince Albert. As far as population goes, Mr. Bulyea thinks when the census of both new provinces is taken next year it will be found that there are a good many more than half a million people living in them."

## CITY MARKETS

There have been a number of enquiries at this office for the publication of the market prices. There has practically been no grain coming in until the first of this week, consequently there has been no prices to quote. At present with the small amount of grain offering, the prices are: Oats—feed, 20c to 21c; milling 21c to 25c; Barley—25c per bushel. A very small quantity of wheat was bought at 65c. Potatoes—25c to 30c per bushel.

## THE YELLOW PERIL

A man named John Thomas became somewhat intoxicated last night and early this morning, about 3 o'clock, walked to obtain shelter for the remaining portion of the night. Opposite the Imperial Hotel is a sort of Chinese dive where it is reported queer games are played by the "yellow peril." Suffice it that a number of them are always there and dressed at all hours of the day or night. Being somewhat at fault, the belated traveller started to hammer and kick at the door of this dive. In a moment the "yellow peril" became a real, active peril and pieces of coal, brick, sticks and other articles rained down on the poor unfortunate. The police heard the noise and soon Mr. Thomas was on his way to the lock-up. A special in civilian clothes was dispatched to look after the Chinamen and upon attempting to obtain admission the rain of bricks commenced anew and soon the Chinamen were left in peace. \$5 or ten days was Magistrate Cowan's admonition to Thomas this morning.
